

# Top Ten Purple Mash Tips

Get a handle on optimising your childrens' experiences

Teachers: Keep an up-to-date list of your class logins, ready for class activities:

Click on the **Admin** icon > Select the **Print Pupil Login** icon

Create groups to target differentiated work within your class:

Click on the **Admin** icon then **Create and manage users**, select **Groups** from the left column, followed by the green **Add** button

Create **display boards** for pupils to submit their thoughts, findings and work. Create and manage them via **Admin** then **Manage Display Boards**

- Use as part of a plenary session and to celebrate achievements
- Keep them fresh: Embed them on your website and delete or archive old ones

Tweak **topics** to meet your teaching objectives.

Once you've opened the App for your chosen topic:

- Click on the **Teacher** icon then the **Wrench** icon to see the options available
- Writers checklists and Word banks are editable and offer a print option

Save your amended topic templates to your **My Work** folder so that:

- The original template is still available for future use by you and others
- You can set the the saved topic as a **2Do** for your children

Close **2Dos** that you've set for pupils once they're complete.

This moves the work automatically into their own folders

Adjust the settings to simplify access for your youngest users, taking them straight to **Mini Mash**.

From your **Teacher** view, select **Mini Mash** > **Settings**

Highlight specific activities for children to explore in **Mini Mash** with **Pins**:

- In **Mini Mash**, select the **Mini Mash** icon to access the Teacher menu
- From the Teacher menu, select to **Edit pins**, search and select pins from the pop-up window

**Serial Mash** offers an online library of books written for the primary school classroom. These come with related pupil activities and a teacher resource pack.
